

JOB APPLICATIONS WANTED

TITLE: Civil Engineer

LOCATION: City of Ithaca - Department of Public Works - Water and Sewer Division

SALARY: \$74,356, with subsequent increases to \$89,227

The City of Ithaca values diverse perspectives and life experiences. We encourage people of all backgrounds to apply, including people of color, women, LGBTQ+, veterans, people with disabilities, and those with lived experiences.

This is a full performance engineering position requiring knowledge and experience in a wide range of professional design and engineering duties in the water and sewer treatment, distribution and collection system(s) field. The work is performed in accordance with established engineering principles with flexibility in choosing methods, materials, and value engineering. The incumbent is given general direction in the planning and preparation of sanitary sewer collection and water distribution system replacement projects in an existing infrastructure consisting of 84 miles and 103 miles of respective pipeline. Water system hydraulic studies and investigations, process and quality control in water and wastewater treatment system(s), building construction, and the overall coordination and management of construction efforts in a day to day water & sewer operation and maintenance organization are typical. Frequent interaction with City of Ithaca boards, subcommittees, municipal officials, and the public are required.

The Civil Engineer position provides engineering support to the entire Water & Sewer Division. The Division operates and maintains the City's water and sewer infrastructure with a staff of operators, technicians, and several light and heavy construction crews.
